

Needs & Service Plan

Infant Program – Room 111 (15-24 months)

This questionnaire will be used to help us care for your child and anticipate his/her needs. Because we believe each child is a unique creation of God we respect their demand schedule and ask that you provide information about their current home routines. We will try to follow them with the understanding that differences in environment may change their needs.

Child's Name: _____	DOB: _____
Mother's Name: _____	
Father's Name: _____	
Primary Care Teacher: _____	

Feeding Plan – All meals will be served at the table & self-help skills encouraged

<u>Times</u>	<u>Foods</u>	<u>Times</u>	<u>Foods</u>

Does your child use any of these to sleep? ___pacifier ___blanket ___toy

Do they use a transitional object to help sleep? ___ yes ___no If yes, what? _____

Additional comments you think will be important for us to know about the overall care of your child: _____

Little Shepherd's Learning Center Policies & Procedures:

Parents are invited to make **visits** prior to their child's first day in our care & **phone calls** are best between 12:30-2:30.

Everything needs to be **labeled**. Everything that goes in or on your child comes from home to empower parents when trying to determine allergies & sensitivities.

Bottles are allowed while sitting at the table. Sippy cups are encouraged and preferred. The teachers will let you know when they are introducing open cups for drinking water.

Pacifiers are permitted during naps but discouraged during class time to promote speech & language development.

Children are not forced to **sleep** and we do not wake sleeping children for feedings or medications. A labeled crib size blanket is welcomed and stored in the cubby outside the room.

We encourage children to sleep on their backs as recommended by the American Academy of Pediatrics to reduce the risk of Sudden Infant Death Syndrome but allow them to turn over if they prefer.

Diapers/Pull ups are changed every 2 hours unless it is needed sooner. Parents need to label each one of them and put 6-8 in their child's bathroom bin with their labeled wipe container.

Outside Time is provided to encourage gross motor, sensory and language development.

Daily Care Reports are provided through our Brightwheel App. It allows two-way communication as we partner with parents. Parents check in at the front desk with a code and signature each day and then enter the child's room for Health Check. Parents inform caregivers where their child is in their routine when entrusting them to our care.

This **Needs & Service Plan** will need to be reviewed & updated with information you provide as necessary for your child's care. We ask that you include any changes in writing or on Brightwheel as needed in "Notes" to Caregivers.

Lesson Plans are planned weekly introducing many new activities & creative messy projects which needs to be considered when choosing clothing for the day.
